

THE CHYRON SCRIBE™ Toolbox

A Product of The Chyron Group

The SCRIBE Toolbox is a system of six interchangeable graphics packages created as SCRIBE or SUPERSCRIBE Master Fonts exclusively for CHYRON by ***Television by Design.*** In addition to Master Fonts, SCRIBE Toolbox comes equipped with palettes, backgrounds, sample pages and extensive documentation for achieving optimum results when converting and utilizing the Toolbox fonts.

- ***Toolbox BOXES*** consists of a variety of borders, boxes and framing elements — provided in square and aspect ratio versions, both with and without inside panels.
- ***Toolbox BARS*** is a collection of horizontal characters designed to feature typography or for use as stand-alone elements in fullscreen displays.
- ***Toolbox SPORTS & WEATHER*** features a complete set of multicolored sports and weather symbols.
- ***Toolbox SIGNS & SYMBOLS,*** designed for general news purposes, is a collection of the most commonly used graphic symbols such as: arrows, road signs, election icons and much more.
- ***Toolbox GEOMETRICS*** is a collection of abstract, multicolored graphic elements — created primarily for designers — consisting of a variety of spheres, fan shapes, corner pieces, patterned rectangles and circles.
- ***Toolbox SHAPES*** are matching single color characters designed for use with or without texture or 3D conversion to enhance other toolbox characters, or to be used as stand-alone elements.
